One year warranty on craftsmanship of tank and OEM warranty on the components

Tank is fabricated with 1/4" steel shell plates and 3/8" bottom plate

Full length and height baffles and bulkheads using 1/4" plate with sure-flow design for optimum slosh performance

3" schedule 40 pipe spray bars and fill line

3 spray heads on rear and two in front, 3" BMC heads with in-cab controls

One remote water cannon, air operated with a 2 1/2"x7/8" brass nozzle and in cab controls

One rear mounted hose reel with 50' of 3/4" hose and wash down nozzle

Interior of tank is painted with Coal tar epoxy and exterior with two coats of acrylic enamel
